Narrative

Mariposa County USD entered into contract with AMS.NET in May of 2017. The work would have to be completed in a four month window. The work funded was too much to be completed in the short timeline left in the original funding date. We filed for an extension of the contract expiration date and an extension of the service delivery date. We received a notification in Dec. 2017 that the process was finished. The email said there was detail in our newsfeed. There was nothing in the newsfeed. We looked up the Form 500 and saw that the contract expiration date was changed. There is nothing on the Form that indicated the Service Delivery Extension was denied. The Form also states to check the Newsfeed for the decision. There was nothing in the newsfeed and no other instructions to get details. From the information on the Form 500 that we could see, the Form 500 was approved. Today I spent 46 minutes on the phone with a representative that works for you (she spent a lot of time trying to help me and was very kind and patient) and she could not find a commitment notification or tell me why we were denied until the last minute. If your employees cannot navigate your system I don't know how we are supposed to figure it out.

Please fund these FRNs. We did everything we could to follow Program rules. The vendor was unable to complete the work in the timeframe allowed. We filed for an extension. We did not receive appropriate notice that the request was denied and the paperwork we did receive looked like it was approved. The work has been completed based the information we were provided.

Please explain the reason for your appeal. If you are appealing multiple decisions by the Administrator (USAC), list all of the decisions you are appealing for FRN(s). You may upload supporting documentation to help further explain your appeal. Please remember that waivers of an official E-rate rule can only be sought at the Federal Communications Commission (FCC), not USAC (this would include such appeals as seeking a waiver of the rule that an invoice extension be filed before the last date to invoice and appeals seeking a waiver of the FCC Form 471 deadline). Conversely, the FCC will not accept appeals of USAC decisions that have not first been appealed to USAC (such as late FCC Form 486s where there is no FCC rule governing the deadline). See 47 C.F.R. § 54.719.
